## PROFILE

I find joy in crafting innovative solutions to real-world challenges. My journey is fueled by the desire to contribute to the ever-evolving field of technology. With ambitions to thrive as a software engineer, I am committed to continuous learning, creative problem-solving, and making a meaningful impact in the world of software development.

## VOLUNTEER EXPERIENCE

### PEER FACILITATOR

#### **Tshwane University of Technology**

*Feb 2022 - Dec 2022*

- Equipping first year students with essential leadership skills through engaging leadership modules designed to foster personal and professional growth.
- Spearheading school and community outreach programs, allowing students to apply their leadership skills in real-world settings and make a positive impact.
- Organizing educational excursions to broaden students' perspectives and enhance their understanding of diverse topics beyond the classroom.

### STUDENT MENTOR

#### **Tshwane University of Technology**

*Feb 2023 - present*

- Offering personalized guidance to enrich students' learning journeys by assisting them with challenging modules on a weekly basis.
- Providing insights and support for mentees in navigating their future careers within the ever-evolving landscape of technology.
- Offering mentorship beyond academics, addressing personal development and well-being.

### CHAIRPERSON

#### **Geekulcha Student Society**

*Oct 2023 - present*

- I define and execute a strategic vision, steering the society toward impactful tech innovation.
- I cultivate an inclusive and collaborative environment, encouraging participation from all aspiring tech enthusiasts.
- I spearhead event coordination, introducing students to immersive tech experiences through hackathons, workshops, webinars and skills challenges.
